When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the re-sult, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be de-stroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucuous surfaces.

And Free From Quackery Regarding a Worthy Subject.

The Rapid Rise of a Well Known Citizen and Successful Physician.

Some fifteen years ago the subject of this short article settled in the city of Grand Rapids and began the practice of medicine. Few knew him, but those who did liked him, for they valued his services and acquaintance. His enemies, if he had any, were those who came in competition with, and failed to surpass him in the race. Envy, however, is one of the best advertisements of a man's worth, and today there is not a physician in the Valley City more

widely and better known.
It is a fact that he has confined himself closely to specialties, but it is better a man do a few things well than many poorly. When he first said he could cure rheumatism the old doctors scratched their heads and said, "he can't do it;" but today thousands can can't do it;" but today thousands can testify that he can, and some of his patients are among the doctors, as well as the lawyers and ministers. By this time every person in Grand Rapids who has read this article thus far knows the subject to be Dr. W. H. Ross, and many of them have tested his skill and know the truth of these statements. The doctor says that rheumatism of all forms arises from one common cause and that is an from one common cause and that is an affection of the blood, which produces congestion, pain and inflammation of some form in the different tissues of the body, and that the only proper way of removing them is counteracting these poisons with proper remedies. In nclusion, the best recommendation the doctor can have is that those who treat with him recommend their friends to go to him, as they can rely upon what he tells them, and they will not be robbed or humbugged. His office is in the Widdicomb building, where it has been since the block was built some years ago and will probably be there for some time to come, as he is well and centrally located, with a large practice. Special attention is given to all constitutional troubles from child-

hood to old age. Hear J. C. Burrows Tuesday night,

There is a brand called "Royal Ruby" Port Wine, so called for its royal taste and ruby color, it is pure and old and has that fruity taste that no other wine has. Druggists sometimes urge that which they have in bulk; why? More profit of course. Royal Kuby port wine is guaranteed by the undersigned to be absolutely pure and over five years old, or money paid for it will be refunded. Quarts \$1.00; pints 60 cts. EAD AND DO SOME THINKING

The voter cannot cast an intelligent Ballot unless he can appreciate the intricate manipulations of the wheels of government and become conversant to some extent at least with the fundamental facts and theories controlling the various great governmental departments, and he cannot hope to know the character of the chief executive unless hereads an Accurate and Impartial Biography, written and compiled by a Master Litterateur, equal to the difficult task.

Gen. Benjamin Harrison is a candidate for re-election. The Nation demands that the hero who led its armies in the Field, and who for four years has wisely and nobly steered the ship of state shall continue to hold the helm and guide our Nation through the perils of the future as ably as he has through those of the past. He who during the administration has saved the country from a series of threatening dangers, has brought Italy and Chile to the feet of our Republican throne, and made even England yield to American demands in the Behring Sea difficulty, is the man for the people of these United States.

United States as one of the most intimate personal friends of President Harrison, and as having had a great deal to do with his re-nomination, has written a biography of the President, which reads like a veritable Romace, yet is Accurate History.
